

Spring Pet Clinic

Spring Framework Guru Edition

Opinionated Design

- Opinionated - There is one way of doing things
- Un-Opinionated - You are open to doing things **anyway** you like
- **Spring Boot** - Brings a number of 'Opinionated' default configurations
 - Thus using Spring Boot is following an opinionated design

Opinionated Development

- The SFG Pet Clinic will also be opinionated software development
 - ie - The opinion of John Thompson
 - Will show you best practices in software design
 - OOP / SOLID
 - TDD
 - Naming Conventions
 - Software Development Life Cycle

What to Expect

- This section of the course will be a little different:
 - Try to emulate a real world software project
 - Will use GitHub, master branch
 - Follow Mainline dev model
 - A lot of step by step examples
 - Use GitHub Issues to plan work and tasks

What to Expect Cont.

- Lessons will re-enforce concepts learned in section of course
- TDD & CI will be introduced ASAP (once Introduced in course)
- Okay to skip ahead!
- But I will be dropping hints and tips whenever possible!
